

Wavelength

A new dimension in advanced networking. Superloop Wavelength offers a highly secure, connectivity option for your network solution requirements. A dedicated circuit, provisioned between two locations using DWDM provides interconnect between key Data Centres and campuses.

Service Attributes	
Physical Medium	IEEE 802.3-2002 Physical Interface
Service Options	10Gbps to 100Gbps
Interface Type	10GBase-LR and 100GBase-LR4
Access Type	Superloop Fibre Access and Super Ports
Service Type Offered	Standard: Single Unprotected Diverse: Diverse Paths, Unprotected*
Service Desk	Available 24/7

*Contact us directly to discuss feasibility, design; extra charges will apply.
